

# Welcome to Monex

Discover how Monex delivers a **simple and secure** finance platform designed for everyday users with an accessible experience.

# Purpose

---

It is a finance app that offers national money transfers. Monex simulates a real-world finance app registration experience.

01

To provide an accessible platform for **everyday users**.

- People who want various payout options
- Senders who value speed and convenience

We focused on simplicity to encourage user engagement and ease of use.

- Send money directly to recipients' bank account or mobile wallets.

02

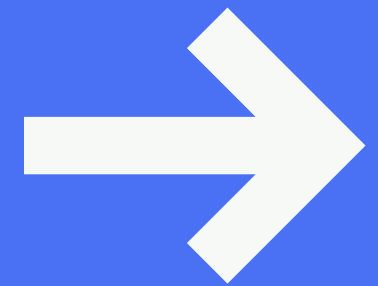

03

This simulation showcases effective design principles in **fintech solutions** for non-technical users. It offers flexibility for every user.

# Key Features

What can this website do?

- Registration form.
- Real-time validation for each field (email format, phone format, password strength).
- Login using email, username, or phone number.
- Confirmation messages, clear feedback, and form logic for smooth UX.
